TECTONOPHYSICS—Volume 256—Nos. 1–4

Special Issue

NEVILLE L. CARTER

On the occasion of his 60th birthday

edited by

HANS G. AVÉ LALLEMANT

Rice University, Dept. of Geology and Geophysics, Houston, TX, USA

and

MEL FRIEDMAN

Texas A&M University, College of Geosciences and Maritime Studies, College Station, TX, USA

CONTENTS

Foreword I vii
Foreword II ix
Comparison of evolution and tectonic significance of the Pindos and Vourinos ophiolite suites, northern Greece
J.V. Ross and J. Zimmerman 1
Abyssal peridotite mylonites: implications for grain-size sensitive flow and strain localization in the oceanic lithosphere
G.E. Jaroslow, G. Hirth and H.J.B. Dick 17
Transformation-induced faulting requires an exothermic reaction and explains the cessation of earthquakes at the base of the mantle transition zone
H.W. Green II and Y. Zhou 39
Textural and mechanical evolution with progressive strain in experimentally deformed aplite
L.N. Dell'Angelo and J. Tullis 57
Microstructure development in an experimentally sheared orthopyroxene granulite
J.V. Ross and K.R. Wilks 83
Influence of crystal plastic deformation on dilatancy and permeability development in synthetic salt rock
C.J. Peach and C.J. Spiers 101
Modeling the evolution of salt structures using nonlinear rocksalt flow laws
R.A. Mazariegos, M.J. Andrews and J.E. Russell 129
An apparatus to experimentally model the dynamics of ductile shear zones
P.D. Bons and J.L. Urai 145
Experimental constraints on shock-induced microstructures in naturally deformed silicates
A.R. Huffman and W.U. Reimold 165
Imaging surface contacts: power law contact distributions and contact stresses in quartz, calcite, glass and acrylic plastic
J.H. Dieterich and B.D. Kilgore 219
An asperity-deformation model for effective pressure
A.F. Gangi and R.L. Carlson 241
Loading configurations and driving mechanisms for joints based on the Griffith energy-balance concept
T. Engelder and M.P. Fischer 253
Displacement partitioning and arc-parallel extension in the Aleutian volcanic island arc
H.G. Avé Lallemant. 279
